AgSafe® Throw-Tabs™ Pond Plant Food

Natural Organic Feeding

Unique 10-4-10 fertilizer tablet (5 gm) feeds floating water hyacinths, submerged plants, waterlilies, and all types of pond plants. Contains a special blend of slow-release and organic fertilizers, high iron, potassium, magnesium, micronutrients, humates, plant & fish extracts, and organic additives (OMRI standards). No Nitrates or Free Phosphates. Easy-to-use, just throw tablet in the vicinity of the floating plants. Tablet slowly dissolves and feeds continuously for 2-3 weeks. Apply 2 tablets for every one ft. diameter of floating or submerged plant spread. Fish and Aquatic Life Safe.

DEALER & CUSTOMER BENEFITS:

- o Natural Organic Tablet - Will Not Cause Algae Growth and No Water Cloudiness *NO Messy Liquids to Measure!*
- o Easy-to-use, Don't Need to Get Wet, Just Throw Tab and Watch Plants Grow and Bloom, *Environmental Friendly!*
